

The Clinton Township Public Library wishes to inform the community of the importance of the upcoming Special Election which will take place on May 5, 2026. If this millage does not pass, the library will be required to reduce its operating hours beginning April 1, 2027.

The additional millage will provide funding that will support the Library's daily operations, staffing, materials, and programs that our community has grown to rely on. Without the additional revenues and due to the rising costs of materials, wages, and other services, the Library will be forced to cut essential services, such as daily hours, materials, and programs.

The Clinton Township Public Library aims to provide complete transparency about its operations and finances. For more information about the millage, you can visit ClintonTownshipLibrary.org/millage2026 or contact the Library directly. The Library encourages the Township residents to do their due diligence and research regarding the upcoming election, and most importantly, to vote.
